About MYGIFTLIST.COM

MyGiftList.com (MGL) is a free, private, universal, online gift registry where individuals can list the gifts they want for Christmas, birthdays, anniversaries, weddings, and other gift giving occasions. MGL was created as a simple way for friends and family members to find and share gift ideas, and to aid them in purchasing online.

MGL is the product of Netphoria, Inc., a nationally known web design and consulting firm, estab-

lished in 1994. In five short years we have produced over 100 projects including corporate and E-

Commerce web sites, CD-ROMs, and custom software applications. The MGL technology is easy to use for shoppers and Affiliates alike. Lists are free, private, and easy to create and share.
